

## Our review of the most successful DDL decors 2018

### A surprise through and through...

The design **Sparok** is far more than just a “little grey mouse”. With its versatile haptics, a surface is created that you simply have to look at and touch – in short: this fantasy decor is an absolute eye-catcher.

### We wish you...

*Cheerful days with the family,  
Reflective hours around the Christmas tree,  
Happy minutes when giving and unwrapping,  
Enough breaks between meals,  
No snow on the road,  
But lots of snow for your winter walk and sledging,  
And a wonderful start into the new year!*

**2019 has it all – we get the best out of it!**

We are looking forward to it,  
Your DDL team
